

Florence Bareyre, Clinical Neuroimmunology
Synaptogenic gene therapy with FGF22 improves circuit plasticity and functional recovery following spinal cord injury

Mariano Gonzalez Pisfil, Core Facility Bioimaging
5 color super-resolution microscopy thanks to fluorescence lifetime unmixing

Christoph Klein, Dr. von Hauner Children's Hospital, University Hospital, LMU Munich
Novel insights from inborn errors of immunity

BMC Science Seasons

January 16, 13:00 – 14:00 h, Audimax BMC
